

## **The Declaration of Peaceful Intent**

### **Renunciation of any violent commands in core religious texts as not applicable for today**

The goal is to establish if people adhering to different faiths have peaceful intent. For this reason the Declaration of Peaceful Intent was created.

People are being asked to sign this Declaration:

- renouncing any passages in their core religious texts that call for violence to be done now,
- and attesting to their peaceful intent.

Note that people are only being asked to renounce doing violence called for by their religious texts. They are not being asked to renounce, for instance, self-defence and participating in the police force and army of their countries.
